Bluda (Ethiopia) September 2013

Dear Friends,

what we saw in Ethiopia last month is almost unbelievable. Blind people saw, deaf ears opened, the lame were walking. We went to **Bluda**, a village that nobody knows. There is no electricity in Bluda, no running water, no cars, only donkeys for transport. We couldn't have reached the place without a 4-wheel drive. We had to cross a river and drive on muddy roads to get there. **Picture above.**

After 13 hours we arrived Bluda in the evening and after setting up our equipment we had the first service. The people couldn't believe that someone would come to them and were very grateful. It was their first gospel outreach. I asked why no Ethiopian preachers from Addis Ababa are coming to them? The answer was that no one likes to go to such places because they are not comfortable and the offerings are very poor.

There was no electricity in Bluda but the power of God was present to heal. We heard some incredible testimonies. Simple people, with simple faith, heard a simple gospel and received miracles.

The first evening I think every hand went up to accept Jesus. There were many healing testimonies during those 5 days, too many to report them all.

A woman testified that she was bleeding for 3 years and now is healed. **Picture right.**

A man said that his left ear was deaf since 2 months and now he can hear. A 15-year old girl - deaf for the last 11 years – was healed. Her father confirmed the miracle.

Another woman was deaf in one ear for the last 10 years and now can hear. **Picture right.**

A 10-year old boy told us that one ear was deaf for the last 5 years and now he can hear. **Picture left.**

We asked for his parents and he told us that he came on his own. We found his uncle in the crowd and he confirmed the miracle.

A man couldn't see and read with his right eye. His eye was healed and we asked him to read with the right eye. **Picture right.**

A mother brought her child and told us that her girl had never spoken since birth, but now she is speaking for the first time.

A young woman said she was half paralyzed and couldn't move one foot and one arm and now she has full use of it.

Another girl was totally deaf for 6 years and she and her mother testified that she can hear. We tested her. Another mother brought her child and told us that the child was deaf since birth and now can hear. **Picture left.**

A girl testified that she was healed from epileptic seizures which she suffered for 2 years. Another woman couldn't move her arm and fingers and demonstrated that she is well now. **Picture right.**

On Saturday morning we always have a healing service and many always come to testify about their healing.

A young woman was deaf for 17 years. She can hear now and her father confirmed it. **Picture left.**

One woman walked barefoot to the meeting for a whole day, about 25 miles. She was blind in one eye and came to receive her healing. She received what she came for and went home seeing. **Picture right.**

One woman was in many hospitals. She had pain all over: in her back, her joints, her knees, her legs and no hospital could help her. God touched her and every trace of sickness and pain was gone. **Picture left.**

A blind woman came to the field on her own. We asked her how she managed to come and she said she followed the noise. Jesus opened her eyes. A neighbor confirmed the miracle. **Picture right.**

A little boy was blind for the last 2 years, due to some kind of poisoning. Doctors said he would never see again. His mother and grandmother brought him from far. The boy received his sight and the boy and the mother were crying. **Picture left.**

A woman deaf since 1958 came to the meeting (5-hour drive by car) with her husband and son. Jesus opened her ears. They all gave testimony. **Picture right.**

Another woman totally blind and deaf was healed and testified.

I preached about the friends who let the lame man down through the roof in front of Jesus. I didn't know that two men carried a lame man to the meeting. I was told that the lame went stood up and went home. I wanted to hear his testimony and was told that he is afraid of his church. He is from the orthodox church which doesn't like our meetings.

Many received Jesus in their lives and also the Holy Spirit. In 3 weeks we are having our next crusade in **Metu**, 600 km away from the capital town.

We were amazed to hear all these stories and testimonies and I was thinking: The last will be first. God visited the shepherds in the field and not the people in Jerusalem. God visited the least, the nobodys.

Our next crusade is October 30 – November 3. I want to thank everyone who is supporting us to do this work. Many, many thanks. You have a big part in what God is doing through these meetings in Ethiopia.

Ekkehard Hornburg

This girl was dumb since birth and spoke for the first time.

This woman suffered by hip ailments since 18 years and could hardly walk.

This girl was dumb and spoke for the first time in her life.
